

## GT300

THE GT300 IS TRACK24'S POWERFUL TRACKING SOLUTION FOR STAFF WORKING WITHIN CELLULAR COVERAGE. ITS COMPACT FORM, RUGGEDNESS AND SOS ALERT FEATURES MAKE IT PERFECTLY SUITED TO EQUIPPING LONE WORKERS, TRAVELLERS, EXPATS AND THEIR DEPENDANTS

### TRACKING

The GT300 reports its position to the Track24 monitoring platform at intervals from every 30 seconds upwards.

### PANIC ALARM

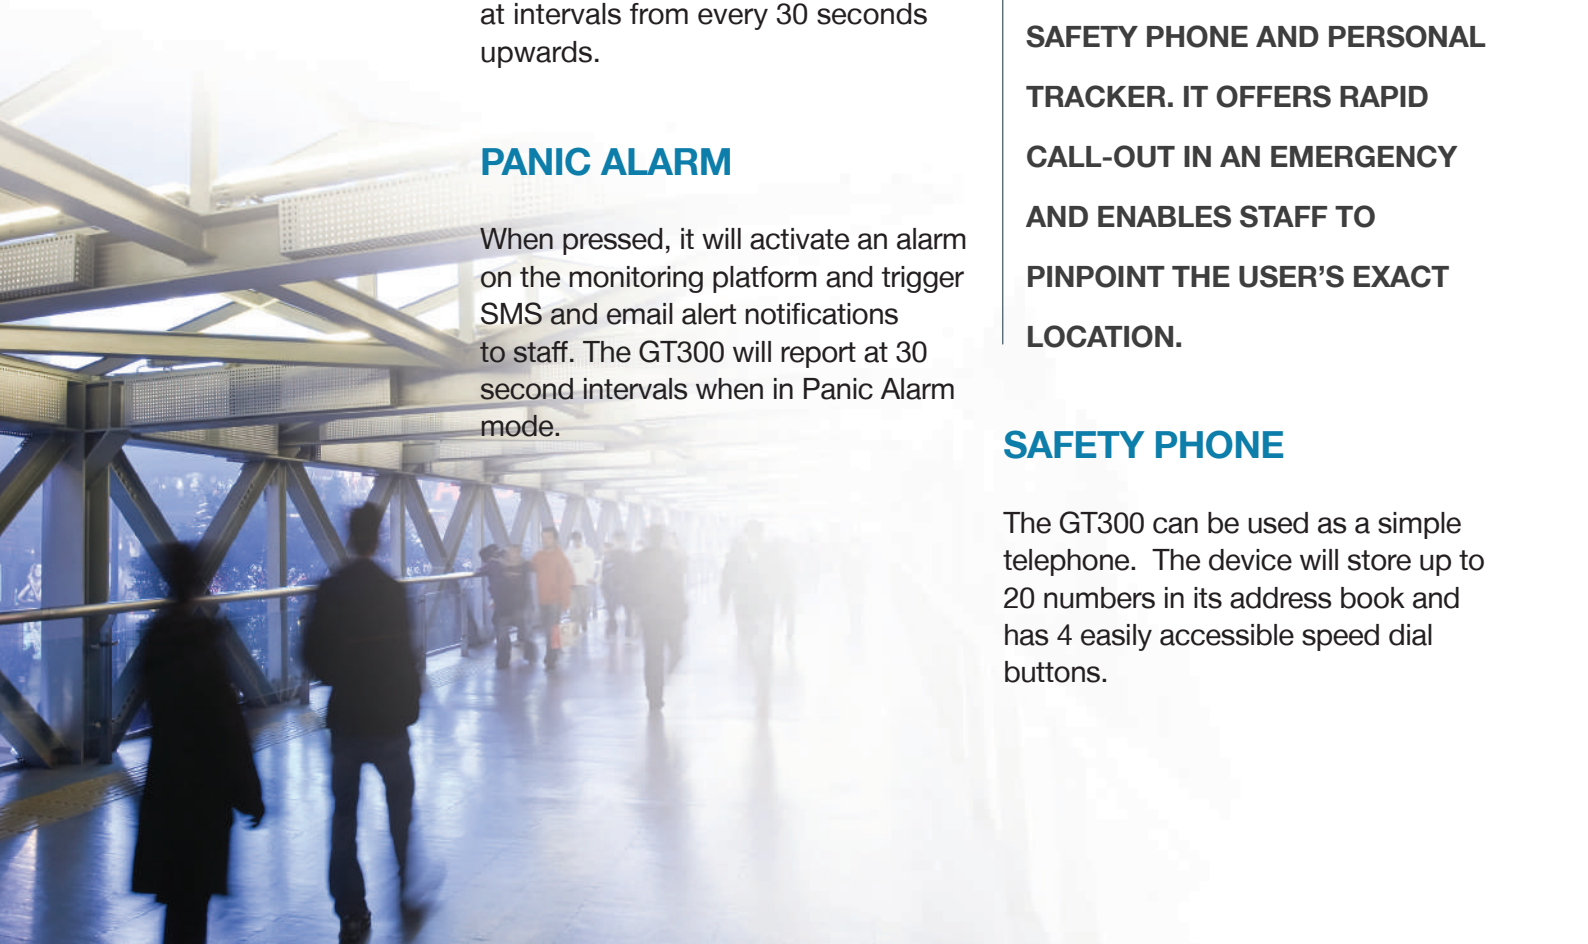

When pressed, it will activate an alarm on the monitoring platform and trigger SMS and email alert notifications to staff. The GT300 will report at 30 second intervals when in Panic Alarm mode.

### COMMUNICATING OVER

**QUAD BAND GSM/GPRS, THE RUGGED GT300 IS BOTH A SAFETY PHONE AND PERSONAL TRACKER. IT OFFERS RAPID CALL-OUT IN AN EMERGENCY AND ENABLES STAFF TO PINPOINT THE USER'S EXACT LOCATION.**

### SAFETY PHONE

The GT300 can be used as a simple telephone. The device will store up to 20 numbers in its address book and has 4 easily accessible speed dial buttons.

## MONITORING PLATFORM

The GT300 is combined with Track24's monitoring and incident alert platform to enable organisations to view and communicate with their personnel and assets on a common operating picture.

## SOS CALL

A two-way voice channel is activated when the device is in panic mode allowing managers to listen into events on the ground. Users can also designate 2 further back up SOS numbers which will be automatically dialed if the primary SOS number fails to connect.

## POLL

The Ops Room can remotely Poll the device, so you can locate staff in an instant.

## DISCREET SIZE

The GT300's small size and simplicity makes the device unobtrusive and easy to conceal.

## TEXT MESSAGING

The device can receive text messages sent via the monitoring platform.
