

TRACK 24

IRIDIUM EXTREME

A POWERFUL SATELLITE HANDSET OFFERING GLOBAL VOICE & TEXT COMMUNICATIONS, TRACKING AND PANIC ALARM

TRACKING

Operating on the Iridium satellite network, Iridium Extreme allows you to stay connected with voice & text communications, along with tracking and SOS alert capabilities anywhere in the world. The device can be programmed to automatically send position updates at set intervals defined by the user.

THE RUGGED AND DURABLE
EXTREME IS THE FIRST IRIDIUM
SATELLITE PHONE TO OFFER
TRACKING AND SOS CAPABILITIES.
IT IS AN IDEAL SOLUTION FOR
LONE WORKERS, REMOTE
OPERATIONS AND BACKUP
EMERGENCY COMMUNICATION.

EXTERNAL ACCESSORIES

Vehicle docking station, External Antenna, USB port (used to charge battery and for internet connection).

PANIC ALARM

When the Panic Alarm button is pushed, the Iridium Extreme immediately performs these three emergency functions:

PANIC ALERTS – SOS messages with updated position are sent at set intervals, triggering audible and visual alerts to predefined individuals.

EMERGENCY TEXT ALERT – The Iridium Extreme can be pre-programmed to send an emergency SMS alert to up to 3 recipients.

EMERGENCY CALL – An automatic call to one pre-defined emergency contact is made.

MONITORING PLATFORM

The Iridium Extreme is combined with Track24's monitoring and incident alert platform to enable organisations to view and communicate with their personnel and assets on a common operating picture.
